MEMORANDUM FOR: Director of Communications
Director of Logistics

25X1A

FROM: Robert W. Gambino
Director of Security

SUBJECT: Installation of Automatic Sprinkler System, 23 APR 1979

25X1A

1. It is requested that the sprinkler system, proposed for installation throughout [REDACTED] during FY-79, be installed as scheduled. (U)

25X1A

25X1A

2. The original Laboratory Building [REDACTED] was constructed in 1953 of timber-framed construction. Throughout the intervening years, four masonry and reinforced concrete additions have been constructed. As a result of the various building additions, [REDACTED] currently consists of approximately 52,000 square feet. (U)

25X1A

25X1A

3. This Office is cognizant that the Office of Technical Service, one of the two largest occupants in [REDACTED] is scheduled to move its assets to another facility within approximately eighteen to twenty-four months. However, this is not really pertinent to the question, as a sprinkler system is required by the occupancy of the balance of the building and because of its age and construction. Therefore, it is our opinion that the sprinkler system should be installed as originally proposed by FY-79. (C)

25X1A

4. Please direct any questions you may have regarding this project to the Chief, Safety Branch, on extension 6204. (U)
